THE CANVASS.

What the Political Prospects Are.

JOHN KELLY IRATE.

The Press Denounced by Him as a Disgrace to Civilization.

TAMMANYTE LIBERALS IN A ROW.

The Proceedings at the Meetings Last Night.

Two days more and the real contest before the ballot box for the political control of this city takes place.

Usually we have at least three weeks of active preparation before election day, after the nominees of all parties are placed before the people for their suffrages.

By this year the Tammany, anti-Tammany and republican forces did not complete their tickets until a few days ago.

The result has been an extremely sharp and vigorous campaign on both sides.

There are really only two parties in this contest, one under the absolute leadership of Mr. John Kelly, in Tammany Hall, and the other composed of the people's combination party, organized by the large mass of independent voters and the honest working classes, headed by Recorder John K. Hewitt and District Attorney Benjamin K. Topper.

The latter, backed by the support of an independent press, fostered by the enthusiastic public opinion, its ranks swelled by the indignation of thousands of workmen and by desertions daily from the camp of the enemy, met positively with the battle on next-Tuesday.

CELESTIAL TRICKS. Ceaseless efforts have been made during the past week by Tammany Hall to turn the tide so surely and suddenly threatening to swamp that organization.

Meetings have been held nightly in all the wards of the city; speakers (nearly all of whom are office-holders) have been engaged by the hundred, and the force of oratory brought to bear upon the citizen in the public indignation is immense.

There is no disputing the fact that those efforts under the name of Tammany, have been made in the most unscrupulous manner, and to the cause of Tammany. The speakers, in the main, pandered to the lower instincts of their hearers. They introduced religious topics, bringing forward a pamphlet issued by the Republican Congressional Committee in Washington, in which a statement was made that the Catholics were engaged in a crusade against the free schools of the country, and tried to saddle the burden of this attack upon the people's party of this city because some republicans are on the ticket.

But they forgot to mention the fact that several republicans hold places in the city government by and with the consent of Tammany Hall. So this vulgar appeal to religious prejudices by the paid orators of Tammany will be very likely to have little effect.

The sober, second thought of the democratic voter will bring him back to consider as to the safest side on which to cast his ballot. An intelligent examination of the issues will show him that the fight is between a "king" government under Mr. John Kelly and a free government under the management of the people themselves.

Nothing of proscriptions should be dragged into the canvass. The history of the Know Nothing party proves that democrats and republicans alike were equally responsible for its monstrous doctrines. An attempt to resurrect this long-buried corpse will only tend further to destroy the political ghoul of Tammany who nightly during the past week have belabored those long forgotten subjects.

THE OUTLOOK FOR THE PEOPLE'S PARTY. According to all indications the chances of success for the people's party in this city have steadily advanced, notwithstanding the great efforts inaugurated by Tammany to decry its leadership and principles.

The pamphlet business has been freely resorted to. Thousands have been struck off and distributed to voters. Some of those pamphlets are such as "The People's Party," "The People's Party," and "The People's Party." Such a virulent and unmanly method of defaming a candidate must defeat the party and do not result in the attainment of the people's party and do not result in the attainment of the people's party.

The manifest injustice of the charges and the manner in which they were placed before the public have aroused sentiments of enthusiasm for the candidacy of Mr. Hackett which must insure his election. Since then many of his friends of the Bench and the Bar and the respectable citizens of New York have come forward and testified their appreciation of his services. The people intend to elect him again, and thus strike down the "one-man" dictation which undertakes to make Judges as Aldermen are made, to control the Bench as Legislatures have hitherto been controlled by Tweed and Company, and to again render the judiciary of the metropolis a thing of scorn, as it was when "Ring" controlled and directed many of its decisions.

THE PROBABLE VOTE OF THE CITY HAS BEEN SET DOWN AT 139,000. Nearly 145,000 have been registered. This year 21,000 more votes have been recorded than that of the last year, 1874. What does this indicate? Certainly a reawakening of the people. Every vote may be counted down beyond question. Every vote in favor of the people's party is a heavy public sentiment against Tammany's dictation will send to the ballot box many voters who have hitherto stood aloof from politics.

There are others who for years have voted the Tammany ticket who will now record themselves against the blundering obstinacy and iron rule of its present leader. Against the independent German elements the republican vote of about 42,000 and the workmen's opposition, how is Tammany going to run in this fight? Some of the leaders say, "We have thorough organization in the machine, and we shall spend thousands of dollars in doubtful districts to carry the election. Nearly all the laboring classes can be bought. Those whom we do not directly control by patronage and protection of jobs are won over by the expenditure of a few dollars." This is a dangerous experiment to try. There is not the slightest doubt, however, that it will be resorted to.

It is a striking evidence of the weakness of the "one-man" power which undertakes to rule the city, that the people's party, and the only party of being looked upon as a party, is being watched, however, and vigorous application of the laws governing bribery at elections will avert this result. ham yesterday afternoon to ascertain his position on these topics, but the gentleman was as dumb as an oyster. He did not, apparently, wish to converse upon the subject of the canvass, and he was accordingly admitted nothing. Under such a condition of affairs an alliance between the Mayor, Comptroller Green and Governor Tilden as against Mr. John Kelly, would be a very desirable one.

It is already authoritatively hinted at. Tammany requires bribery to conduct his battles. He has cast aside the old-fashioned method of bribery, and he has substituted the new method of bribery, which is to bribe the press.

some of the men who are running for office against you and you know that they will leave nothing undone to defeat us.

THE WICKED PRESS. The daily papers, with few exceptions, have bitterly opposed our nominations, and have particularly directed their attacks against us. They are filled with misrepresentations daily, but I think that within the last few days they have added numbers to the party, and their chief cry is that John Kelly is a dictator.

In a rebuttal of that charge I would simply say that I have advised as to the nomination; in no case have I failed to consult the members of the several districts. We have agreed upon proper men for office, and that is all the kind of influence that I have used. You have judiciary candidates to be proud of the press has denounced me, but it could not belittle them, and I am happy to state that they will be elected and will discharge their duties unimpaired.

JOHN W. DOCKHORN. Eleventh avenue and Forty-sixth street, Oct. 28, 1875.

DECLINES ACCEPTING HIS MANHOOD. New York, Oct. 30, 1875. Hon. John Kelly, Chairman of the Committee on Organization of Tammany Hall.

When the Tammany Hall party was reorganized, under the auspices of the Committee on Organization of Tammany Hall, I became a member of the organization, and for the past three years I have been a member of the Committee on Organization of Tammany Hall. I then believed that the organization would be conducted upon democratic principles; that the people would have a voice in directing its policy.

But since that time I have seen the organization exerted in favor of good government and for the protection of the rights and interests of the people at large. I have seen the organization used to secure its democratic character, until now it has become a mere creature in the hands of one man. Those who have resented or protested against your measures or your arbitrary rule have been expelled from the organization; the rights of the laboring classes have been shamefully abused, and you have placed the organization under the control of one man.

THE MEETING THEN ADJOURNED. No. 163 East Fifth street, Oct. 28, 1875.

MOBSTER, BUT THOROUGHLY GOOD. I would like to get out of the position which I hold. I am not a great man, but I am influenced by good motives, and while I am here will use all my endeavors to give the State a good government.

RECORDED HACKETT. Recorder Hackett received a letter on Friday from a number of prominent citizens who are desirous of making public his answer to the charges contained in the anonymous pamphlet used against him by Tammany.

MR. PECKHAM'S CHANGEOVER OPINION OF RECORDED HACKETT. Recorder Hackett received a letter on Friday from a number of prominent citizens who are desirous of making public his answer to the charges contained in the anonymous pamphlet used against him by Tammany.

NOT MALICIOUS. Oakley Hall, he continued, has charged me with malice and malignant motives and accused me of having written the anonymous pamphlet used against him by Tammany, and that is that I have not so had a character as Oakley Hall. The community has judged him, and if he obtained what he desired he would probably have written the anonymous pamphlet used against him by Tammany.

MAKING A TARGET OF COLONEL GILDERSEVE. Mr. Kelly then pronounced glowing eulogiums upon the Tammany ticket, and said that he was very proud to be a member of it. He said that he was very proud to be a member of it, and that he was very proud to be a member of it.

THE REPORT OF THE COMMITTEE ON NATURALIZATION. The report of the Committee on Naturalization was read, and it was found that the committee had recommended the admission of a large number of aliens.

JOHN MORRISSEY'S REMOVAL. There is a man running down town for Senator who boasts, I see by the press, that he has always been victorious in his contests. He is a man who has always been victorious in his contests, and he is a man who has always been victorious in his contests.
